

## **Application Form**

### **Marla Diamond Master Gardener Grant**

The state cooperative extension-based Master Gardener Program has two goals:

1. To provide gardeners with up-to-date horticulture information and knowledge.
2. To furnish an opportunity for extending that knowledge to others in the community through volunteer activities.

The Marla Diamond Master Gardener Grant is available to WNF&GA members who applied and were accepted by their county horticulture cooperative extension to begin the two-year training and volunteer program to become a master gardener volunteer educator.
